MEMORANDUM

TO: Katheryn Emery, P.E., Engineer Chief, DWWM

FROM: Corey McComas, DWWM

DATE: May 12, 2025

SUBJECT: Center Public Service District
Rock View/Rt. 97 Extension - Phase II
IJDC No. 2022S-2209
Engineering Design and Total Fee Waiver Request

RECOMMENDATION

The Engineering Design and Total Fee Waiver Request, prepared by Thompson and Litton for the above referenced project has been reviewed and it is technically feasible.

DISCUSSION

The waiver request, dated March 10, 2025, includes additional work that includes engineering costs associated with environmental concerns (e.g. crayfish, bats, etc.), additional surveying, and easements. In addition, the design fee includes the fees for Phase II and III of the project but the construction costs were only based on Phase II and didn't include Phase III. This was done at the Owner's request which shows a high fee in comparison.
